

## **Higher Power Aviation Adds USAirways B-737 Cockpit Systems Simulator**

**Grand Prairie, Texas, January 14, 2003** - Higher Power Aviation today announced that the former USAirways Boeing 737 Cockpit Systems Simulator (CSS) together with four Classroom Systems Training Boards (STB) and three Static Procedures Trainers (SPT) have been installed at its headquarters and training center at Grand Prairie, TX, near Dallas-Fort Worth International Airport.

The USAirways training equipment comes through an agreement with CAE of Montreal, Canada, which will also provide maintenance support and the former USAirways Boeing 737 Classic full flight Level C simulator at its CAE-SimuFlite facilities at DFW Airport.

In keeping with its commitment to excellence and innovation, Higher Power Aviation will utilize the simulator, procedures trainers and systems training boards to further enhance its FAR part 142 approved programs for the Boeing 737-200/300 aircraft. HPA also provides training on all models of the Boeing 737 through the Next Generation. Moreover, HPA has been selected to provide the initial and recurrent training, including program development and instructional services, to the U.S. Navy for the C-40A aircraft, a Boeing 737-700/800 derivative.

Higher Power Aviation is a FAA part 142 approved simulator training center operating in the DFW area and is a leading training provider offering innovative training solutions to individual pilots, VIP operations, domestic and foreign airlines, governmental agencies, military entities and other aviation concerns. Further, HPA provides flight crewing services and regulatory certification consulting and training for FAR part 125 operators, start-up air carriers and those adding new types of aircraft to their operating certificate. More pilots choose Higher Power Aviation for their FAA Boeing 737 type rating training than any other training center worldwide.
